Portfolio | LinkedIn | GitHub

## PROFESSIONAL SUMMARY

Front-End Developer with hands-on industry experience in building responsive, user-centric web applications for the tech sector. Skilled in turning design prototypes into accessible, reusable components, integrating live data, and improving performance. Problem-solver with a collaborative, AI-assisted Agile approach.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
**Frontend:** React, React Router, Zustand (State Management), Axios, Vite, Tailwind CSS, Framer Motion, Responsive Design
**Tools & Platforms:** Git, GitHub, GitHub Actions, Vercel, Figma, Postman, VS Code, Chrome DevTools
**AI Tools:** Antigravity (AI Code Editor), Claude AI, ChatGPT, GitHub Copilot, Gemini Code, Prompt Engineering
**Concepts:** Component-Based Architecture, REST API Development & Integration, Web Accessibility, Agile/Scrum

## WORK EXPERIENCE

**Front-End Developer** | Liqvid e-Learning Services Pvt Ltd, Noida — Dec 2025 – Present

- **LMS Platform:** Delivered 218 frontend tasks across 7 modules (course player, notebook, transcript, navigation, dashboards, gamification, leaderboards), 100% completed in the release plan
- Built 5 transcript features (search, click-to-jump, auto-highlight and more) and 4 time-stamped notebook actions
- Developed learner/teacher dashboards and 3-view leaderboards (weekly, monthly, all-time) with 68 live API integrations
- Implemented learner badges, streaks, an avatar gallery and 18 teacher badges (8 rank, 10 achievement)
- **Challenges solved:** Resolved 10 of 10 assigned QA bugs, including data that synced only after a hard reload, avatars leaking across users, hardcoded rank and learner counts, and a broken mobile menu
- **Interactive eBook Platform:** Delivered 380 tasks and 110 live API integrations as frontend and API developer across 5 modules: publisher portal, PDF/EPUB conversion engine, authoring tool, build & test and platform
- Building an authoring editor with 12 activity templates (MCQ, MSQ, drag-and-drop, matching, crossword, interactive video and more) plus media, hotspot and popup embedding
- **Key challenges:** Converting PDF/EPUB into responsive, searchable HTML with bookmarks and annotations; packaging books as SCORM, offline and encrypted builds; exporting tests to PDF, Word and LMS formats

**Front-End Development Intern** | Dytus Academy — Jun 2025 – Nov 2025

- Developed and maintained responsive client websites using React, JavaScript, HTML5, CSS3 and Tailwind CSS, ensuring cross-browser compatibility
- Built reusable React UI components and took part in code reviews within Agile workflows

## PROJECTS

**Healthy Dishes – Restaurant Ordering App** | React, TypeScript, Zustand, React Router, Axios — Source Code

- Built a restaurant web app with online ordering (delivery, pickup, dine-in), table reservations, menu availability and order tracking by order number
- Managed state with Zustand, integrated REST APIs via Axios and automated deployment with GitHub Actions

**Villofarm – Dairy E-commerce Storefront** | HTML, CSS, JavaScript — Live Demo

- Responsive storefront with product cards (price, discount, rating), video sections, testimonials and blog

## EDUCATION & CERTIFICATION

**Bachelor of Computer Applications (BCA)** | Dr. Ram Manohar Lohia Avadh University — Completed 2025

**Frontend Developer Course (Certification)** | Dytus Academy — Nov 2025

**Languages:** English, Hindi **Activities:** Tech Meetup Delhi, Aug 2025
